

GOALS★FOR AMERICANS® FOUNDATION

**Embracing Our
Responsibility
to the World**

Making Our Vision of the Future a Reality

April 4, 2002

To Decision Makers

Dear Decision Maker:

As a policymaker, you must, of course, have the background and knowledge to make wise decisions.

The purpose of our foundation is to inspire and arm you so that you can guide America into the Future (small task!).

To help you create foreign policy and national security measures that will protect our country and create a climate worldwide that favors freedom and humanitarian interests, we give you this PIOOM World Conflict and Human Rights Map.

Please mount it on your wall, share it with your staff, and integrate this research into the programs and planing processes that shape our policy.

We have a common purpose. Please let us hear from you.

Sincerely,

Paul Flum
President

P.S. I have a Scholar at the Woodrow Wilson Center who is working fulltime with Director Lee Hamilton to encourage “Foresight and Future Planning in Government.”

It’s a big job – but, with your help, we will do it.
